

Mastering MapStore Administration (MS2)

DURATION: 8 hours (2 sessions)

LEVEL: Basic

TRAINER: [Lorenzo Natali](#), [Mauro Bartolomeoli](#)

This training will give you advanced information for installing, configuring and operating MapStore in production. In particular the workshop will cover the following topics:

- Advanced installation and configuration options
- Look&Feel customization
- Integration with GeoServer
- Backup and restore of the configuration
- Scaling limitations and howtos

PREREQUISITES

MS1 training module is recommended. A good knowledge of GIS concepts and mapping protocols and system administration tools is required.

ACCOMPLISHMENTS

At the end of the training, the user will be able to administer and configure a production-ready installation for MapStore.

OTHER INFORMATION

GeoSolutions will make available an all-in-one package to run the workshop as a VM for VirtualBox or a self-contained Zip file for Windows. This should be pre-installed on attendees laptops before the workshop.

This is an **intermediate** training, **MS1** is recommended as a precondition.
