To a bodhisattva, the power of the awakened mind is the capacity to be effective and beneficial in the service of others. When we deny, ignore or fear our power, it can become hidden in the shadow and then manifest in destructive ways. Vajrapani gives us a means to clarify, awaken and transform our innate potential to skillfully embody the power to be effective in our lives.

Rob has been a practicing Tibetan Buddhist since 1973, and Jungian based psychotherapy since 1985, gradually developing a synthesis of Jungian and Buddhist understanding. Since 1985 he has been leading meditation retreats, integrating a Western approach to tantric practice. Today he teaches retreats in the UK with his wife Anna and also in Europe and the US.
