

WORKSHOPS & EVENTS

---

**WELCOME!**

THE  
**CLAY CENTRE**

**We are so excited to  
welcome you to The  
Clay Center!**

**Keep reading for  
information on what  
to bring and how to  
get here.**

---

# What to bring

## **Clay Clothes, Aprons & Towels**

Please wear appropriate clothing that you don't mind getting messy in, including an apron & a towel.

## **Short fingernails**

In pottery, your fingers are your most valuable tool, if you are wheel throwing, please trim your fingernails before class.

## **For wheel & wine & events: Drinks & nibbles**

Please feel free to BYO any drinks and nibbles. We can supply wine glasses and mugs.

**Please note, we will not teach intoxicated people. Please drink responsibly.**

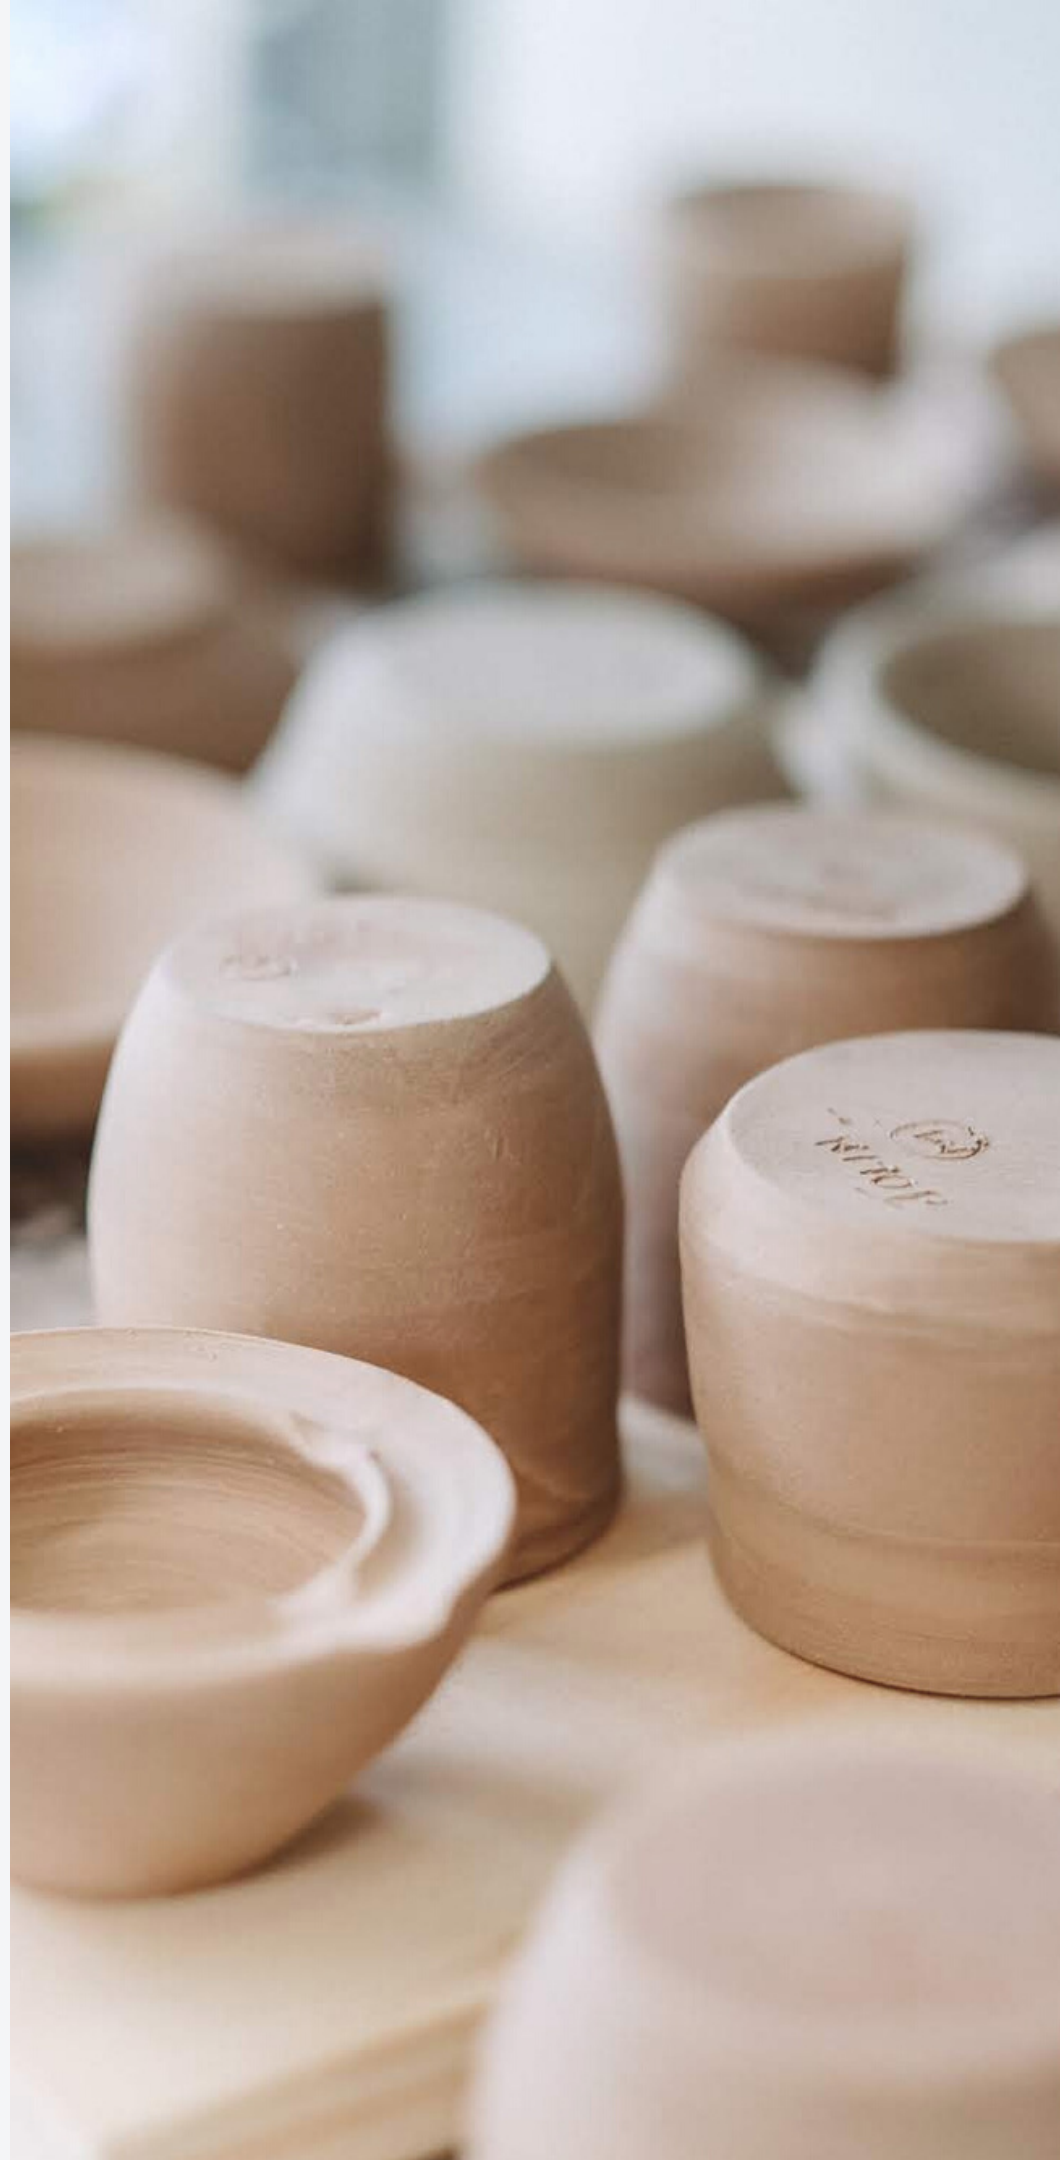

---

# How to get here

**145 Marua road, Ellerslie**

We are located on a busy road in the heart of Ellerslie. Right next door to Safe Car Mechanics.

We also have the 751 bus stop on our front door step and are only a short distance from both the Ellerslie & Panmure train stations.

## Where to park?

We have 9 off road parking spaces, all directly in front of The Clay Centre and our garage to the left. Don't worry about blocking each other in.

Once these parks are filled you are welcome to park in the tyre shop parks next door to us provided your event is after 6 pm. If you miss out on those parking spaces there is also plenty of off street parking after 5 pm

A hand is holding a vibrant blue ceramic mug. In the background, several other mugs in different colors (white, blue, green) are visible on a white surface.

# When will the pots be ready for collection

## 3-4 weeks

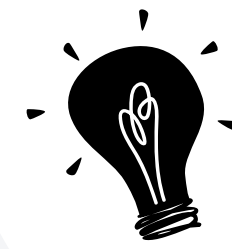

Your pots need to dry, be tidied, named and then go through 2 firings in our very busy kilns. Each firing can take up to 3 whole days and has limited capacity, Check out the next page for a more detailed break down!

Please wait for us to email you, if we haven't emailed you, your pots are not ready.

---

# The Journey of your pot

---

While your pot is going through this process, so are hundreds of others!

## Step 1 & 2 | drying & Tidying (3-7 Days)

After you leave The Clay Centre we patiently wait for your pots to dry. We then tidy up each pot individually, hand smoothing any sharp edges or lumps. Each pot then gets a custom code and name so they don't get lost.

## Step 3 | The 1st Firing (3 - 4 Days)

Once the pots are completely dry, they are loaded one by one into a kiln. This can be quite time consuming as they are extremely delicate at this stage. The kiln will fire up to 1000°C and has to be left to cool naturally after reaching temp. This is called the bisque firing, it makes each pot strong, porous and ready for glazing..

## Step 4 & 5 | Glazing & the 2nd firing (3 - 4 Days)

When the kiln has cooled we then unload all of your pots, and sort them into colours. They are then dusted and dipped into your chosen glaze colour. Once the glaze has dried they are ready to be loaded back into the kiln for their last firing to 1220°C. After the kiln has cooled for the last time, the now shiny pots are unloaded and grouped. This is when your group organiser will be emailed, letting them know the pots are done!
