

## SCENTWORK UK TRIAL INFORMATION SHEET

Thank you for entering our Scentwork UK Open Level 5 Trial on Saturday, 22 October 2022.

Your Judge is Hannah Crook and your Trial Manager is Jackie Lawer. The Trial Manager is based inside and should you have any questions, this is your first port of call.

You are in Level 5 in the afternoon. The trial starts after the Level 1 trial is finished with a briefing and walk through, which everyone should attend. We will confirm the start time together with your running orders, which will be emailed a few days prior to the Trial.

There will be three search areas – two in the main building, with the exterior search area in the vicinity of the hall. Please avoid these areas with your dogs until you are called for your turn. Please make sure you know which dog you will be following in each search and be ready near the entrance to be called in.

It goes without saying that you should not discuss the location of the scented items with other competitors or others until the trial has ended!

There are toilets accessible from the main entrance – please do not take your dogs into this area.

Certificates will be presented to everyone who has qualified once the results have been recorded. There are also rosettes for 1st to 4th place and unplaced competitors achieving a 'clean sweep' (finding all the scented items) will also receive a rosette. We hope to submit the results to Scentwork UK in the evening.

Please note, you may **not** walk dogs on the playing field opposite the hall. If you turn right outside the gates, the lane immediately outside of the car park is quiet and leads to a couple of tracks and footpaths. Do pick up after your dogs everywhere please and use the black bin next to the gates to dispose of waste.

This link should provide you with directions to the hall. Please note that the hall is referred to as Perran-ar-Worthal Village Memorial Hall on the map – this is now known as the Perranwell Centre and is one and the same!
