

CAE Integrated ATPL London Gatwick

Type of Programme

Integrated Airline Transport Pilot License (ATPL)

Eligibility requirements

- Must be at least 18 years of age at the start of the programme
- Must have successfully completed secondary education
- Proficient in the English Language (verbal and written)*
- Must be able to obtain an UK CAA or EASA Class 1 Medical

Assessment

Stage 1: Online Application

CAE will review all candidate applications to assess whether they successfully meet the criteria for the Integrated ATPL Programme. Successful candidates through this stage will be invited to complete an assessment with CAE.

Stage 2: ADAPT Test

Once you pass the first stage of the selection process screening you will be invited to do an ADAPT test, which will take place virtually.

The assessment will cover:

- Personality Questionnaire – typical behavioural preferences and tendencies
- Progressive Mathematics – applied understanding of key, relevant mathematical concepts
- Progressive Physics – applied understanding of key, relevant physics concepts
- Cognitive – key cognitive aptitudes, abilities, and reasoning skills
- FAST – learning potential and multi-tasking under pressure

Stage 3: Personal Interview

The final stage is the interview which will be conducted online. Your personal interview will be your opportunity to share with us the reasons you want to be a Commercial Airline Pilot, your understanding of the course and the level of commitment required to be successful in this demanding programme. It is also your opportunity to share with us your understanding of the airline industry and your vision of your future within it.

*You may be required to provide an official English Language Certificate dependant on your nationality.

CAE Integrated ATPL London Gatwick

Course Outline

CAE's Integrated Airline Transport Pilot License (ATPL) Programme takes cadets with little or no previous flying experience and prepares them for a career at an airline after graduation.

Phase 1: Theoretical Knowledge Training

- Learn the ATPL related theory knowledge across 14 subjects including the new EASA subject KSA 100
- Classroom led computer-based training (CBT) and student led private studies

Duration: Approximately 950 hours

Location: CAE London Gatwick, UK

Phase 2: Single Engine Flight Training

- Learn how to fly solo in a single-engine piston aircraft
- Perform your Commercial Pilot License (CPL) Skill Test
- Aircraft and simulator training

Duration: Approximately 145 hours

Location: Fair Weather Flying Location

Phase 3: Multi engine Flight Training

- Learn how to fly using instruments on a multi-engine piston aircraft
- Perform your Multi-Engine Instrument Rating (MEIR) Skill Test
- Aircraft and simulator training
- Advanced Upset Prevention & Recovery Training (A-UPRT)

Duration: Approximately 52 hours

Location: UK or European Flying Location

Phase 4: Airline Pilot Standards Multi Crew Cooperation (APS MCC)

- Learn how to fly as a member of a professional airline cockpit crew
- Obtain your Airline Pilot Standards Multi Crew Cooperation (APS MCC)
- Classroom and Flight Simulator Training on state-of-the-art technology, CAE Boeing 737 FFS/FTD (Full Flight synthetic or Fixed based training devices)

Duration: Approximately 40 hours theory, 36 hours practice

Location: CAE London Gatwick, UK
