MY REASON WHY

2019

2022

Those who know our family will be lucky enough to meet my sassy little niece, Willow. After a dramatic entry into the world, In January 2019, she spent the first 8 months of her life in the NICU at Guys & St Thomas Hospital in London. Due to being a micro-preemie (24 weeks gestation) her parents, my sister & brother in law didn't find out Willow was profoundly deaf until she was almost 10 months old. 8 months later in June 2020 in the middle of lockdown in the UK, Willow had Cochlear implant surgery. Everything went smoothly and she was switched on a week later. Fast forward to January 2022 and thanks to her parents dedication to learning BSL from scratch, Willow can now sign over 150 words! For a 3 year old this is amazing! She also loves music & dancing & is becoming quite the chatterbox too! The deaf community has become a huge part of my sisters' life and now mine. I always knew it would as we want Willow to always feel 100% included in everything we do! Please support me as I raise funds & awareness on my journey to the London Marathon 2022!
