East Midlands *East* Maths Hub

Primary Mathematics Network - Lincolnshire

The Lincolnshire Mathematics Primary Networks provide a supportive professional learning community for those responsible for leading and delivering Mathematics in their school. We work together to explore best practice in Mathematics education from a national and local perspective. In particular there will be opportunities for professionals to collaborate and share strategies to improve outcomes and experiences for pupils of Mathematics in all schools. Alongside this the latest messages from the NCETM key national opportunities will be shared.

This programme is open to Primary Mathematics co-ordinators across all schools and alliances. We are working in collaboration with a number of Teaching School Alliances and will run the network in the following four locations:

Bourne Primary Network

Eventus Conference Centre
Dates:
Tuesday 31st October 2017
Tuesday 27th February 2018
